

**Join our Constellation!**  
**MTC4SJ Summer 2021 Stars**  
**Collaborative Workshops**

**Why?** By bringing together a diverse group of Connecticut secondary mathematics educators (grades 6-12; total of 8-12 people) with a wide range of experiences, we aim to create social justice math lessons in a collaborative setting and produce a digital book as a resource guide geared for secondary mathematics educators in Connecticut. We are committed to developing **capacity** for educators to do this work in classrooms and continuing to build a **community** of professionals supporting and inspiring each other.

**When?** We are planning all collaborative engagements to occur over a 2-week period between the dates of **July 12th** and **July 23rd**. There will be a total of 6 virtual meetings (3 each week) for about 2 hours each (12 hours total) devoted to collaborative work under a shared framework.

**What are we asking of our Stars?**

- Attend the collaborative workshop meetings between the dates of July 12 and July 23 to create one social justice math lesson with supporting teacher materials under a shared framework and format for a digital book/resource guide
- Facilitate a MTC4SJ session on your lesson topic during the '21-'22 academic year
- Implement your lesson in the classroom or run a workshop among your colleagues (depending on your role) and share your experiences to add to the resource guide
- Participate in any survey materials and provide feedback to the Leadership Team

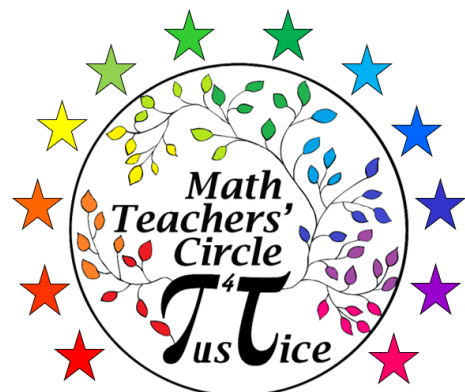

**What will the Stars receive?**

- Honorarium of \$150 (check); MTC4SJ T-shirt
- Authorship on the digital book
- Part of an networked, collaborative community of social-justice math educators
- Additional leadership opportunities (e.g., MTC4SJ presentation; ATOMIC presentation)

To apply, please [complete the application](#) by Monday, May 24, 2021.
